YOUR IMPACT ANIMALS IN CRISIS PROGRAMS PREPAREDNESS VIDEO NEWS ABOUT GET INVOLVED DONATE

Operation Military Pets Assistance Application

BEFORE YOU APPLY:

Thank you for your interest in SPCA International's Operation Military Pets (OMP) program. Before you request animal relocation assistance, please consider the following:

1. This program is designed to help only members of the military that have exhausted all options for paying to relocate their pets. If the program is abused, then it could mean military families that genuinely need help will not receive a grant.
2. Please apply within 2 months of your animal's travel date, but no earlier.
3. You must obtain a quote from the airline for the cost of flying your animals before submitting this application.
4. You are required to submit 6 photos of your family and pets at the end of this application. At least one must include your service member in uniform.
5. After submitting your application, you will be required to submit a copy of your relocation orders.
6. Grant amounts are determined based on need and funds available, up to \$2,000 per family.
7. SPCA International distributes up to \$20,000 in grants each month. If an application is denied because the maximum monthly grant amount has already been distributed, applicants are welcome to apply again. Applicants are responsible for resubmitting their application.
8. Families are only eligible for OMP financial aid once every 4 years.
9. You will receive an update on your application status within a week of submission.
