

How to review the lists of high incidence areas, virus variant areas and other risk areas published on the [website of the Robert Koch Institute](https://www.rki.de).

*Can also view on Spangdahlem COVID homepage - <https://www.spangdahlem.af.mil/Coronavirus/>

->Select hyperlink *Risk Areas*

Step 1: Visit the link below

https://www.rki.de/EN/Home/homepage_node.html

Information on COVID-19 in English:

The screenshot shows the Robert Koch Institute (RKI) website. At the top, there is a navigation bar with links for 'The Institute', 'Health Monitoring', 'Infectious Diseases', 'Publications', and 'Careers'. Below this, the main content area features a large blue graphic titled 'COVID-19 in Germany'. The graphic includes icons for social distancing (1.5 Meter), a face mask, a hand being washed, a person opening a window, a smartphone, and a building. To the right of the graphic is a text block: 'The Robert Koch Institute is continuously monitoring the situation, evaluating all available information, estimating the risk for the population in Germany, providing health professionals with recommendations and gives an overview of its own COVID-19 research. In late December 2020, vaccinations against COVID-19 have started in Germany. In order to prevent infections, however, it is still necessary for the entire population to be committed to infection prevention and control, e.g. by consistently observing rules of distance and hygiene - also outdoors - , by ventilating indoor spaces and, where indicated, by wearing a community mask correctly and use the Corona Warn App.' Below the text is the date 'Date: 18.03.2021'. Underneath the graphic and text is an 'Overview:' section with two bullet points: '» Weekly situation reports, incl. epidemiological situation, risk assessment, test numbers, vaccination monitoring, intensive care capacities and more in Germany (in English)' and '» Dashboard with notified case numbers by state (Bundesland) and district (Landkreis, in German)'. A blue link 'Information on COVID-19 in English:' is highlighted, with an arrow pointing to it from the text 'Click here' on the left. Below this link is another bullet point: '» www.rki.de/covid-19-en'. At the bottom of the main content area, there is a section for 'All RKI recommendations in German:' with a bullet point: '» www.rki.de/covid-19'. On the right side of the page, there is a 'News' section with four items: 'Follow us on twitter', 'Deployment handbook "In Control: A Practical Handbook for Professionals Working in Health Emergencies Internationally" (24.3.2021)', 'Second COVID-19 Mission to Kosovo (17 to 29 January 2021)', and 'The performance of the Local Health Authorities during this pandemic is extremely impressive: Crisis Response is the motto of the 2021 Local Health Authority Day (16.3.2021)'. The last item has a sub-item: 'Latest Ebola outbreak in Guinea: same virus as during the large Westafrican Outbreak in 2014 (12.3.2021)'.
